

# PO2 Printing a Copy of a Single Purchase Order

All Requisitions once converted into a Purchase Order will be automatically be emailed or faxed to the supplier. The purpose of this section allows the person to print off a copy of any Purchase Orders that have already been Emailed/Faxed/Printed. The Order number must be known as this must be entered when requesting a copy.

### 1. Converting Requisition to a Purchase Order Process

There is an automatic process that converts all Requisitions to a Purchase Order. This process takes place every 10 minutes.

#### 2. Automatic Emailing/Faxing Process

After this the order is emailed or faxed to the supplier depending on the supplier contact details. This process takes place every 10 minutes.

If the email or fax has been unsuccessful the Data Control section within General Ledger will check to see the reason why it has not been sent and re-send the Purchase Order.

The details of the order are held centrally on a University Server which must be requested to be available on the user's PC using the printing process instructions in this section.

#### Known Causes for being unable to print order

- Requisition is not fully approved so will not convert into a Purchase Order.
- The time the request for print was processed too quick after the Requisition was approved by the Purchasing Officer – Systems Support Section advise waiting 15/20 minutes.
- Trying to print off a Purchase Order approved by another Purchasing Officer

Any other problems please contact the Agresso Support Desk

## PO2.1 Printing a Copy of a Single Purchase Order

1. Access the 'Entry/Amendment of a Purchase Order' screen by clicking on:
