Degree of BSc in Horticulture	SAC.10
Degree of BSc in Landscape Management	SAC.18
Degree of BTechnol	SAC.23
Appeals Code	SAC.42

I Appeals by Students

The Code of Appeals for students pursuing courses at the Scottish Agricultural College which contribute to degrees of the University are set out in the appropriate section of the following pages (SAC.42). Any appeal must be intimated in writing within fourteen days of the intimation to the student of the decision which he or she appeals against, stating the grounds of appeal. Appeals will not be entertained against marks or decisions of examiners, or other matters of academic judgement, but only on grounds of unfair procedure or medical evidence.

In certain circumstances students who are dissatisfied with the decision of the Academic Appeals Committee may make a further appeal to the University Senate. The Code of Procedure for Appeals to the Senate is printed in the section of the *University Calendar* entitled *University Fees and General Information for Students*.

II INTRODUCTION

The University of Glasgow awards degrees to students who have undertaken degree courses in several colleges associated with the University, including the Scottish Agricultural College.

Application for admission to first degree courses at the College must be made through the Universities and Colleges Admissions Service (UCAS), Rosehill, New Barn Lane, Cheltenham, Glos. GL52 3LZ. Further information about courses may be obtained from the Admissions Officer, SAC Ayr Campus, Auchincruive Estate, Ayr KA6 5HW.

III DEGREE OF BACHELOR OF SCIENCE IN APPLIED BIOSCIENCE

The degree of Bachelor of Science in Applied Bioscience will be governed by a Resolution of the University Court. The relevant provisions are as follows:

1. The Degree of Bachelor of Science in Applied Bioscience may be conferred by the University of Glasgow as a General degree or as a degree with Honours. The degree with Honours may be conferred in either Applied Bioscience (Animal Science) or Applied Bioscience (Plant Science) or Applied Bioscience (Agricultural Science) or Applied Bioscience (Biotechnology) or Applied Bioscience (Environment). The degree shall be administered by the Scottish Agricultural College (hereinafter 'the College'). The College shall, subject to Senate's approval where appropriate, be responsible for the content and conduct of programmes and degree examinations and other methods of assessment, the admission and progress of students and related matters. The day-to-day management of each degree programme shall be the responsibility of a management team appointed by the College.
2. The curriculum for the General degree shall extend over not fewer than three academic sessions of full-time study, and the curriculum for the degree with Honours shall extend over not fewer than four academic sessions of full-time study. The programmes for the degree shall be provided at the College or in the University of Glasgow. Candidates may be permitted to count as qualifying for the degree periods of study undertaken, examinations completed at other institutions approved by the University Court on the recommendation of the College and the Senate; provided always that students whose attendance, examination passes and assessments are thus recognised must attend the College or the University of Glasgow for at least one final year of full time study for the General degree or at least two final years of full-time study for the degree with Honours.
3. The University Court may, on the recommendation of the College and the Senate, recognise as teachers for the degree such lecturers and other teaching staff of the College who have responsibility for programmes qualifying for the degree.

4. The College shall recommend to the Senate and the University Court the appointment of examiners for the degree, including at least one external examiner. The College may recommend as internal examiners, but not as external examiners, for the degree members of the teaching staff of the College who have been recognised as teachers for the degree in terms of section 3 above.
5. Candidates may not present themselves more than once for the Final Honours examination, except by special permission of the Senate on the recommendation of the College.
6. (a) There shall be three classes of Honours, but the examiners may, in their discretion, divide the second class into two divisions. The names of the candidates placed in each class or division, as the case may be, shall be arranged in alphabetical order.
(b) A candidate who has failed to be placed in any class may, provided that in the opinion of the examiners he or she has given evidence of sufficient attainment, receive from them a certificate entitling him or her to exemption, in whole or in part, from the examinations prescribed for the General degree.
7. If a candidate is adjudged by the Board of Examiners to have been prevented by good cause from completing the assessment for the degree programme (honours or non-honours), then the arrangements set out in the Code of Assessment in the *University Fees and General Information for Students* section of the *University Calendar* shall apply.
8. The progress of all students shall be subject to annual review. Students may be suspended from further attendance on the course if they have failed to satisfy the management team that they have completed the year's work to a satisfactory standard, in accordance with the arrangements for assessment specified in the Schedule. All decisions by the management team on the progress of students shall be reported to the College.
9. A student who wishes to appeal against any decision affecting his or her studies must do so in writing in accordance with the Code of Procedure of Appeals, which is printed in this section (*p.* SAC.42) of the *University Calendar*. If the matter cannot be resolved at that level, the student may appeal to the Senate against the decision of the Academic Appeals Committee. The Code of Procedure for Appeals to the Senate is also printed in the *University Calendar*.
10. Students shall be required to comply with such instructions as are prescribed by the management team in charge of the programme. Such instructions may require students: to attend specified lectures, tutorials, laboratory or practical sessions, field courses, examinations and other events; to provide themselves with such books, equipment and other

materials as are necessary for the course; to submit items of work, including essays, dissertations and project reports, by such dates as may be instructed. All such instructions shall be given to the students in writing at the beginning of the course. Reasonable notice of any alteration to them will also be given. A student who fails to comply with these instructions may be refused enrolment in and admission to degree examinations in the subject. Work that is submitted later than the date instructed, without an acceptable reason being provided, shall be subject to a reduction in the mark awarded according to a scale given in writing at the beginning of the programme.

11. The programme and subjects of study for the degree, the arrangements for the assessment of students, and other matters related to the degree shall be as stated in the Schedule hereto.

SCHEDULE

1. Subjects of Study

In the first year of study for the Degree of Bachelor of Science in Applied Bioscience, there is a common curriculum of core units. In the second and third years, the curriculum comprises both core and elective units. Students are required to choose particular groups of elective units, with some units being mandatory within each group. In the fourth year, the curriculum includes both core and elective units which allow students to specialise broadly in Animal Science, Plant Science, Agricultural Science, Biotechnology or Environment.

The subjects of study for the degree shall be defined in terms of the following course units. The contact hours shown include lectures, practical classes and related assignments.

<i>Unit Title</i>	<i>Hours</i>	<i>SCOTCAT Credits</i>
<i>Year 1</i>		
Cells and the Fundamentals of Life	40	8
Biochemistry of Cells	40	8
Energy and Metabolism	40	8
Genetics	40	8
Introduction to the Abiotic Environment	40	8
Microbial Growth and Activity	40	8
Plant Physiology	40	8
Plant Growth and Development	40	8
Animal Physiology	40	8
Livestock Breeding and Health	40	8
Introducing Biotechnology for Food, Land and Environment	40	8

<i>Unit Title</i>	<i>Hours</i>	<i>SCOTCAT Credits</i>
Laboratory Safety	40	8
Environmental Awareness	40	8
Information Technology Applications 1	40	8
Learning Skills	20	4
Career Planning	20	4
Total	600	120

*Year 2***Core:**

Communication – Selecting and Presenting Complex Information	40	8
Problem Solving using Teamwork and Quantitative Methods	40	8
Data Handling	40	8
Introduction to Business Management	40	8
Sub-total	160	32
Electives	440	88
Total	600	120

List of electives in Year 2:*Either Applied Bioscience*

Recombinant Technology*	40	8
Laboratory and Industrial Enzymology*	40	8
Cell and Tissue Culture*	40	8
Laboratory Design and Operation to Quality Standards*	40	8
Applied Crop Physiology	40	8
Soils and Crop Nutrition	40	8
Introduction to Plant Protection	40	8
Integrated Plant Protection	40	8
Livestock Nutrition	40	8
Livestock Health and Welfare	40	8
Manipulation of Animal Productive Function	40	8
Ecology and Habitats: An Introduction	40	8
Introduction to Pollution and Waste Management	40	8

* *mandatory for this group*

<i>Unit Title</i>	<i>Hours</i>	<i>SCOTCAT Credits</i>
Or Agricultural Science		
Applied Crop Physiology*	40	8
Arable Crop Production*	40	8
Soils and Crop Nutrition*	40	8
Introduction to Plant Protection*	40	8
Livestock Nutrition*	40	8
Livestock Health and Welfare*	40	8
Livestock Production Systems*	40	8
Livestock Product Requirements, Manipulation and Processing*	40	8
Integrated Plant Protection	40	8
Manipulation of Animal Productive Function	40	8
Ecology and Habitats: An Introduction	40	8
Recombinant Technology	40	8
Cell and Tissue Culture	40	8
Grass and Fodder Crop Production	40	8
Introduction to Pollution and Waste Management	40	8

* *mandatory for this group*

Year 3

Core:

Research Techniques	40	15
Experimental and Analytical Techniques	40	15
Animal Growth and Development	40	15
Carbon Assimilation and Partitioning in Plants	40	15
	—	—
Sub-total	160	60
Electives	160	60
	—	—
Total	320	120

List of electives in Year 3:

Either Applied Bioscience

Pharmacology in Animal Health	40	15
Animal Welfare and Behaviour	40	15
New Perspectives in Plant Protection	40	15
Crop Products and Potential	40	15
Management Strategy and Entrepreneurship	40	15
Livestock Enterprise Management	40	15
Biochemical and Genetic Resources	40	15
Environmental Biotechnology	40	15
Environmental Chemistry and Toxicology	40	15
Waste Management and Pollution Control	40	15

Or Agricultural Science		
Livestock Enterprise Management*	40	15
Crop Products and Potential*	40	15
Pharmacology in Animal Health	40	15
Animal Welfare and Behaviour	40	15
New Perspectives in Plant Protection	40	15
Management Strategy and Entrepreneurship	40	15
Biochemical and Genetic Resources	40	15

* *mandatory for this group*

Year 4

Core:		
Honours project	120	45
Topical Issues in Applied Bioscience	40	15
	—	—
Sub-total	160	60
Electives	160	60
	—	—
Total	320	120

Groups of electives in Year 4:

Candidates must choose four electives, including the stated minimum number of electives from one of the named groups. In order to make a total of four electives, one elective may be chosen from any group, as appropriate.

Either Applied Bioscience (Animal Science)

At least three electives must be chosen from this group.

Animal Welfare: Disease and Diagnostics	40	15
Advanced Nutritional Science	40	15
Animal Breeding and Genetics	40	15
Poultry Meat Production Systems	40	15

Or Applied Bioscience (Plant Science)

At least three electives must be chosen from this group.

Plant Protection Technology	40	15
Plant Responses to Stress	40	15
Plant Biotic Interactions	40	15
Biotechnology and Crop Improvement	40	15

<i>Unit Title</i>	<i>Hours</i>	<i>SCOTCAT Credits</i>
Or Applied Bioscience (Agricultural Science)		
<i>At least four electives must be chosen from this group.</i>		
Food and Agri-business Economic Policy	40	15
Animal Welfare: Disease and Diagnostics	40	15
Advanced Nutritional Science	40	15
Animal Breeding and Genetics	40	15
Poultry Meat Production Systems	40	15
Plant Protection Technology	40	15
Plant Responses to Stress	40	15
Plant Biotic Interactions	40	15
Biotechnology and Crop Improvement	40	15
Soil, Environment Interactions	40	15
Or Applied Bioscience (Biotechnology)		
<i>At least three electives must be chosen from this group.</i>		
Animal Welfare: Disease and Diagnostics	40	15
Animal Breeding and Genetics	40	15
Plant Responses to Stress	40	15
Plant Biotic Interactions	40	15
Biotechnology and Crop Improvement	40	15
Commercialisation of New Technologies	40	15
Or Applied Bioscience (Environment)		
<i>At least three electives must be chosen from this group.</i>		
Waste Reduction and Recycling	40	15
Water Pollution and Inorganic Toxicants	40	15
Biodiversity and Conservation Ecology	40	15
Soil, Environment Interactions	40	15
Geographic Information Systems	40	15

2. Assessment

The arrangements for assessment and examination shall be as follows:

Years 1 and 2:

There shall be continuous assessment of students in each course unit. Progress will depend upon attaining a satisfactory standard in each course unit. Where a student has not completed all the course units relating to the first year he or she may be permitted to progress to the second year of the course provided that he or she has achieved at least 104 SCOTCAT credits. To progress to the third year the student must have achieved 240 SCOTCAT credits, with Merit being achieved in course units normally equivalent to at least 40 SCOTCAT credits from those offered in the second year.

Year 3:

There shall be up to eight examination papers depending on the electives chosen, and an assessment of course work. Students who attain the requisite standard in the degree examinations and the assessment of course work shall be eligible for the award of the General degree. Alternatively, they shall be eligible to proceed to a fourth year leading to the degree with Honours.

Year 4:

There shall be five examination papers, a dissertation based on the fourth year project, an assessment of course work and a contribution of marks from Year 3. Students who attain the requisite standards shall be eligible for the award of the degree with Honours in accordance with Section 6 of the Resolution.

IV DEGREE OF BACHELOR OF SCIENCE IN HORTICULTURE

The degree of Bachelor of Science in Horticulture will be governed by a Resolution of the University Court. The relevant provisions are as follows:

1. The Degree of Bachelor of Science in Horticulture may be conferred by the University of Glasgow as a General degree or as a degree with Honours. The degree shall be administered by the Scottish Agricultural College (hereinafter 'the College'). The College shall, subject to Senate's approval where appropriate, be responsible for the content and conduct of programmes and degree examinations and other methods of assessment, the admission and progress of students and related matters. The day-to-day management of each degree programme shall be the responsibility of a management team appointed by the College.
2. The curriculum for the General degree shall extend over not fewer than three academic sessions of full-time study, and the curriculum for the degree with Honours shall extend over not fewer than four academic sessions of full-time study. The programmes for the degree shall be provided at the College or in the University of Glasgow. Candidates may be permitted to count as qualifying for the degree periods of study undertaken, examinations completed at other institutions approved by the University Court on the recommendation of the College and the Senate; provided always that students whose attendance, examination passes and assessments are thus recognised must attend the College or the University of Glasgow for at least one final year of full time study for the General degree or at least two final years of full-time study for the degree with Honours.
3. The University Court may, on the recommendation of the College and the Senate, recognise as teachers for the degree such lecturers and other teaching staff of the College who have responsibility for programmes qualifying for the degree.

4. The College shall recommend to the Senate and the University Court the appointment of examiners for the degree, including at least one external examiner. The College may recommend as internal examiners, but not as external examiners, for the degree members of the teaching staff of the College who have been recognised as teachers for the degree in terms of section 3 above.
5. Candidates may not present themselves more than once for the Final Honours examination, except by special permission of the Senate on the recommendation of the College.
6. (a) There shall be three classes of Honours, but the examiners may, in their discretion, divide the second class into two divisions. The names of the candidates placed in each class or division, as the case may be, shall be arranged in alphabetical order.

(b) A candidate who has failed to be placed in any class may, provided that in the opinion of the examiners he or she has given evidence of sufficient attainment, receive from them a certificate entitling him or her to exemption, in whole or in part, from the examinations prescribed for the General degree.
7. If a candidate is adjudged by the Board of Examiners to have been prevented by good cause from completing the assessment for the degree programme (honours or non-honours), then the arrangements set out in the Code of Assessment in the *University Fees and General Information for Students* section of the *University Calendar* shall apply.
8. The progress of all students shall be subject to annual review. Students may be suspended from further attendance on the course if they have failed to satisfy the management team that they have completed the year's work to a satisfactory standard, in accordance with the arrangements for assessment specified in the Schedule. All decisions by the management team on the progress of students shall be reported to the College.
9. A student who wishes to appeal against any decision affecting his or her studies must do so in writing in accordance with the Code of Procedure of Appeals, which is printed in this section (*p.* SAC.42) of the *University Calendar*. If the matter cannot be resolved at that level, the student may appeal to the Senate against the decision of the Academic Appeals Committee. The Code of Procedure for Appeals to the Senate is also printed in the *University Calendar*.
10. Students shall be required to comply with such instructions as are prescribed by the management team in charge of the programme. Such instructions may require students: to attend specified lectures, tutorials, laboratory or practical sessions, field courses, examinations and other events; to provide themselves with such books, equipment and other materials as are necessary for the course; to submit items of work, including essays, dissertations and project reports, by such dates as may be

instructed. All such instructions shall be given to the students in writing at the beginning of the course. Reasonable notice of any alteration to them will also be given. A student who fails to comply with these instructions may be refused enrolment in and admission to degree examinations in the subject. Work that is submitted later than the date instructed, without an acceptable reason being provided, shall be subject to a reduction in the mark awarded according to a scale given in writing at the beginning of the programme.

11. The programme and subjects of study for the degree, the arrangements for the assessment of students, and other matters related to the degree shall be as stated in the Schedule hereto.

SCHEDULE

1. Subjects of Study

In the first year of study for the Degree of Bachelor of Science in Horticulture, there is a common curriculum of core units. In each of the second, third and fourth years, the curriculum comprises both core and elective units. Students are required to choose particular groups of elective units, with some units being mandatory within each group.

The subjects of study for the degree shall be defined in terms of the following course units. The contact hours shown include lectures, practical classes and related assignments.

2. Assessment

The arrangements for assessment and examination shall be as follows:

Years 1 and 2:

There shall be continuous assessment of students in each course unit. Progress will depend upon attaining a satisfactory standard in each course unit. Where a student has not completed all the course units relating to the first year he or she may be permitted to progress to the second year of the course provided that he or she has achieved at least 104 SCOTCAT credits. To progress to the third year the student must have achieved 240 SCOTCAT credits, with specified standards being achieved in the Integrative Assessments.

Year 3:

There shall be up to eight examination papers depending on the electives chosen, and an assessment of course work. Students who attain the requisite standard in the degree examinations and the assessment of course work shall be eligible for the award of the General degree. Alternatively, they shall be eligible to proceed to a fourth year leading to the degree with Honours.

Year 4:

There shall be up to six examination papers depending on the electives chosen, a dissertation based on the fourth year project, an assessment of course work and a contribution of marks from Year 3. Students who attain the requisite standards shall be eligible for the award of the degree with Honours in accordance with Section 6 of the Resolution.

V DEGREE OF BACHELOR OF SCIENCE IN LANDSCAPE MANAGEMENT

The degree of Bachelor of Science in Landscape Management will be governed by a Resolution of the University Court. The relevant provisions are as follows:

1. The Degree of Bachelor of Science in Landscape Management may be conferred by the University of Glasgow as a General degree or as a degree with Honours. The degree shall be administered by the Scottish Agricultural College (hereinafter 'the College'). The College shall, subject to Senate's approval where appropriate, be responsible for the content and conduct of programmes and degree examinations and other methods of assessment, the admission and progress of students and related matters. The day-to-day management of each degree programme shall be the responsibility of a management team appointed by the College.
2. The curriculum for the General degree shall extend over not fewer than three academic sessions of full-time study, and the curriculum for the degree with Honours shall extend over not fewer than four academic sessions of full-time study. The programmes for the degree shall be provided at the College or in the University of Glasgow. Candidates may be permitted to count as qualifying for the degree periods of study undertaken, examinations completed at other institutions approved by the University Court on the recommendation of the College and the Senate; provided always that students whose attendance, examination passes and assessments are thus recognised must attend the College or the University of Glasgow for at least one final year of full time study for the General degree or at least two final years of full-time study for the degree with Honours.
3. The University Court may, on the recommendation of the College and the Senate, recognise as teachers for the degree such lecturers and other teaching staff of the College who have responsibility for programmes qualifying for the degree.
4. The College shall recommend to the Senate and the University Court the appointment of examiners for the degree, including at least one external examiner. The College may recommend as internal examiners, but not as external examiners, for the degree members of the teaching staff of the College who have been recognised as teachers for the degree in terms of section 3 above.
5. Candidates may not present themselves more than once for the Final Honours examination, except by special permission of the Senate on the recommendation of the College.
6. (a) There shall be three classes of Honours, but the examiners may, in their discretion, divide the second class into two divisions. The names

of the candidates placed in each class or division, as the case may be, shall be arranged in alphabetical order.

- (b) A candidate who has failed to be placed in any class may, provided that in the opinion of the examiners he or she has given evidence of sufficient attainment, receive from them a certificate entitling him or her to exemption, in whole or in part, from the examinations prescribed for the General degree.
7. If a candidate is adjudged by the Board of Examiners to have been prevented by good cause from completing the assessment for the degree programme (honours or non-honours), then the arrangements set out in the Code of Assessment in the *University Fees and General Information for Students* section of the *University Calendar* shall apply.
 8. The progress of all students shall be subject to annual review. Students may be suspended from further attendance on the course if they have failed to satisfy the management team that they have completed the year's work to a satisfactory standard, in accordance with the arrangements for assessment specified in the Schedule. All decisions by the management team on the progress of students shall be reported to the College.
 9. A student who wishes to appeal against any decision affecting his or her studies must do so in writing in accordance with the Code of Procedure of Appeals, which is printed in this section (*p.* SAC.42) of the *University Calendar*. If the matter cannot be resolved at that level, the student may appeal to the Senate against the decision of the Academic Appeals Committee. The Code of Procedure for Appeals to the Senate is also printed in the *University Calendar*.
 10. Students shall be required to comply with such instructions as are prescribed by the management team in charge of the programme. Such instructions may require students: to attend specified lectures, tutorials, laboratory or practical sessions, field courses, examinations and other events; to provide themselves with such books, equipment and other materials as are necessary for the course; to submit items of work, including essays, dissertations and project reports, by such dates as may be instructed. All such instructions shall be given to the students in writing at the beginning of the course. Reasonable notice of any alteration to them will also be given. A student who fails to comply with these instructions may be refused enrolment in and admission to degree examinations in the subject. Work that is submitted later than the date instructed, without an acceptable reason being provided, shall be subject to a reduction in the mark awarded according to a scale given in writing at the beginning of the programme.
 11. The programme and subjects of study for the degree, the arrangements for the assessment of students, and other matters related to the degree shall be as stated in the Schedule hereto.

SCHEDULE

1. Subjects of Study

In each year of study for the Degree of Bachelor of Science in Landscape Management, the curriculum comprises both core and elective units. In the first and second year, students are required to choose particular groups of elective units, whereas in the third and fourth years there is a free choice from among the elective units offered.

The subjects of study for the degree shall be defined in terms of the following course units. The contact hours shown include lectures, practical classes and related assignments.

<i>Unit Title</i>	<i>Hours</i>	<i>SCOTCAT Credits</i>
<i>Year 1</i>		
Core:		
Integrative Assessment 1	40	8
Integrative Assessment 2	40	8
IT Applications	40	8
Supervision and Management	40	8
Horticulture Practices	80	16
Plant Recognition	40	8
Fundamentals of Landscape Surveying	40	8
Planting Design	40	8
Design Process and Composition	40	8
	400	80

Crop Enterprise Management	40	15
Land & Habitat Restoration	40	15
GIS & Remote Sensing	40	15
Conservation Ecology	40	15

2. Assessment

The arrangements for assessment and examination shall be as follows:

Years 1 and 2:

There shall be continuous assessment of students in each course unit. Progress will depend upon attaining a satisfactory standard in each course unit. Where a student has not completed all the course units relating to the first year he or she may be permitted to progress to the second year of the course provided that he or she has achieved at least 104 SCOTCAT credits. To progress to the third year the student must have achieved 240 SCOTCAT credits, with specified standards being achieved in the Integrative Assessments.

Year 3:

There shall be up to six examination papers depending on the electives chosen, and an assessment of course work. Students who attain the requisite standard in the degree examinations and the assessment of course work shall be eligible for the award of the General degree. Alternatively, they shall be eligible to proceed to a fourth year leading to the degree with Honours.

Year 4:

There shall be up to three examination papers depending on the electives chosen, a dissertation based on the fourth year project, an assessment of course work and a contribution of marks from Year 3. Students who attain the requisite standards shall be eligible for the award of the degree with Honours in accordance with Section 6 of the Resolution.

VI DEGREE OF BACHELOR OF TECHNOLOGY

The Degree of Bachelor of Technology is governed by Resolution No.388 of the University Court, which came into effect on 22nd June 1994. The relevant provisions are as follows:

1. The Degree of Bachelor of Technology (BTechnol) may be conferred by the University of Glasgow as a General degree or as a degree with Honours. The degree shall be administered by the Scottish Agricultural College (hereinafter 'the College'). The College shall, subject to Senate's approval where appropriate, be responsible for the content and conduct of programmes and degree examinations and other methods of assessment, the admission and progress of students and related matters. The day-to-day management of each degree programme shall be the responsibility of a management team appointed by the College.
2. The curriculum for the General degree shall extend over not fewer than three academic sessions of full-time study, and the curriculum for the degree with Honours shall extend over not fewer than four academic sessions of full-time study. The programmes for the degree shall be provided at the College or in the University of Glasgow. Candidates may be permitted to count as qualifying for the degree periods of study undertaken, examinations passed and assessments completed at other institutions approved by the University Court on the recommendation of the College and the Senate; provided always that students whose attendance, examination passes and assessments are thus recognised must attend the College or the University of Glasgow for at least one final year of full time study for the General degree or at least two final years of full time study for the degree with Honours.
3. The University Court may, on the recommendation of the College and the Senate, recognise as teachers for the degree such lecturers and other teaching staff of the College who have responsibility for programmes qualifying for the degree.

4. The College shall recommend to the Senate and the University Court the appointment of examiners for the degree, including at least one external examiner for each programme. The College may recommend as internal examiners, but not as external examiners, for the degree members of the teaching staff of the College who have been recognised as teachers for the degree in terms of section 3 above.
5. Candidates may not present themselves more than once for the Final Honours examination, except by special permission of the Senate on the recommendation of the College.
6. (a) There shall be three classes of Honours, but the examiners may, in their discretion, divide the second class into two divisions. The names of the candidates placed in each class or division, as the case may be, shall be arranged in alphabetical order.

(b) A candidate who has failed to be placed in any class may, provided that in the opinion of the examiners he or she has given evidence of sufficient attainment, receive from them a certificate entitling him or her to exemption, in whole or in part, from the examinations prescribed for the General degree.
7. If a candidate is adjudged by the Board of Examiners to have been prevented by good cause from completing the assessment for the degree programme (honours or non-honours), then the arrangements set out in the Code of Assessment in the *University Fees and General Information for Students* section of the *University Calendar* shall apply.
8. The progress of all students shall be subject to annual review. Students may be suspended from further attendance on the course if they have failed to satisfy the appropriate management team that they have completed the year's work to a satisfactory standard, in accordance with the arrangements for assessment specified in the Schedule for each course. All decisions by the management team on the progress of students shall be reported to the College.
9. A student who wishes to appeal against any decision affecting his or her studies must do so in writing in accordance with the Code of Procedure for Appeals, which is printed in this section (*p.* SAC.42) of the *University Calendar*. If the matter cannot be resolved at that level, the student may appeal to the Senate against the decision of the Academic Appeals Committee. The Code of Procedure for Appeals to the Senate is also printed in the *University Calendar*.
10. Students shall be required to comply with such instructions as are prescribed by the management team in charge of the programme concerned. Such instructions may require students: to attend specified lectures, tutorials, laboratory or practical sessions, field courses, examinations and other events; to provide themselves with such books, equipment and other materials as are necessary for the course; to submit items of work,

including essays, dissertations and project reports, by such dates as may be instructed. All such instructions shall be given to the students in writing at the beginning of the course concerned. Reasonable notice of any alteration to them will also be given. A student who fails to comply with these instructions may be refused enrolment in and admission to degree examinations in the subject. Work that is submitted later than the date instructed, without an acceptable reason being provided, shall be subject to a reduction in the mark awarded according to a scale given in writing at the beginning of the programme.

11. The programmes and subjects of study for the degree, the arrangements for the assessment of students, and other matters related to the degree, shall be as stated in the Schedules hereto.

SCHEDULE A: DEGREE OF BACHELOR OF TECHNOLOGY IN LEISURE AND RECREATION MANAGEMENT

1. Subjects of Study

The subjects of study for the degree shall be defined in terms of the following course units. The contact hours shown include lectures, tutorials, practical classes and related assignments.

<i>Unit Title</i>	<i>Hours</i>	<i>SCOTCAT Credits</i>
<i>Year 1</i>		
Core		
Leisure in Practice 1	40	8
Career Planning	20	4
Learning Skills	20	4
Managing Finance in the Leisure Industry	40	8
Marketing Leisure Services 1	40	8
Managing Legal Issues in the Leisure Industry	40	8
Leisure and Society	40	8
Quality Service in the Leisure Industry	40	8
Human Resource Management 1	40	8
Communications: Selecting and Presenting Complex Information	40	8

2. Assessment

The arrangements for assessment and examination shall be as follows:

Years 1 and 2:

There shall be continuous assessment of students in each course unit. Progress will depend upon attaining a satisfactory standard in each course unit. Where a student has not completed all the course units relating to the first year, he or she may be permitted to progress to the second year of the course, provided that he or she has achieved at least 104 SCOTCAT credits. To progress to the third year, the student must have acquired 240 SCOTCAT credits, with Merit being achieved in course units normally equivalent to at least 40 SCOTCAT credits from those offered in the second year.

Year 3:

There shall be two two-hour examination papers in Business & Management Strategies/Human Resource Strategies and Economics in the Leisure and Tourism Industries/Sociology & Geography of Leisure; one one-hour examination paper in Research Methodologies/Work Shadowing Practical; and three one-hour examination papers in the Electives chosen.

Students who attain the requisite standard in the degree examinations and in the assessment of coursework shall be eligible for the award of the General degree. Those who obtain a sufficiently high standard shall, alternatively, be eligible to proceed to a fourth year leading to the degree with Honours.

Year 4:

There shall be three one-and-a-half hour examination papers in Consumer Studies, Field Course and Case Study and Business Development Plan; three one-and-a-half hour examination papers in the Electives chosen; and a dissertation equivalent to two examination papers. Students who obtain the requisite standards in the degree examinations and in the assessment of coursework will be eligible for the award of the degree with Honours, in accordance with Section 6 of the Resolution.

SCHEDULE B: DEGREE OF BACHELOR OF TECHNOLOGY IN FOOD TECHNOLOGY

1. Subjects of Study

The subjects of study for the Degree of Bachelor of Technology in Food Technology shall be defined in terms of the following course units. The contact hours shown include lectures, tutorials, practical classes and related assignments.

<i>Unit Title</i>	<i>Hours</i>	<i>SCOTCAT Credits</i>
<i>Year 1</i>		
Learning Skills	20	4
Communication: Selecting and Presenting Complex Information	20	4
Problem Solving using Teamwork and Quantitative Methods	20	4
Information Technology Applications 1	40	8
Food Science & Technology: Chemical Composition of Food	40	8
Food Science & Technology: Chemical Analytical Procedures	40	8
The Microbiology of Foods and Food Processing	40	8
Food Hygiene	40	8
Food Processing Services	60	12
Food Raw Materials	40	8
Raw Material Preparation and Preliminary Processing Operations (Food)	40	8
Chilling and Freezing of Foods	40	8
Heat Processing of Foods	40	8
Food Packaging, Storage, Distribution and Retailing	40	8

2. Assessment

The arrangements for assessment and examination shall be as follows:

Years 1 and 2:

There shall be continuous assessment of students in each course unit. Progress will depend upon attaining a satisfactory standard in each course unit. Where a student has not achieved all the course units relating to the first year, he or she may be permitted to progress to the second year of the course, provided that he or she has achieved at least 104 SCOTCAT credits. To progress to the third year, the student must have acquired 240 SCOTCAT credits, with Merit being achieved in course units normally equivalent to at least 40 SCOTCAT credits from those offered in the second year.

Year 3:

There shall be three examination papers and an assessment of class work, all given equal weighting. Students who attain the requisite standard in the degree examinations and the assessment of class work shall be eligible for the award of the General degree. Those who obtain a sufficiently high standard shall, alternatively, be eligible to proceed to a fourth year leading to the degree with Honours.

Year 4:

There shall be three examination papers, a practical research project and an assessment of class work. The project will be given double weighting therefore contributing 33% to the final mark. Students who obtain the requisite standards will be eligible for the award of the degree with Honours, in accordance with Section 6 of the Resolution.

SCHEDULE C: DEGREE OF BACHELOR OF TECHNOLOGY IN AGRICULTURE**1. Subjects of Study**

The subjects of study for the Degree of Bachelor of Technology in Agriculture shall be defined in terms of the following course units. The contact hours include lectures, tutorials, practical classes and related assignments.

Applied Livestock Technology	40	13

Group B

Value Added and Diversification – Crop	40	13
Value Added and Diversification – Livestock	40	13

2. Assessment

The arrangements for assessment and examination shall be as follows:

Years 1 and 2:

There shall be continuous assessment of students in each course unit. Progress will depend upon attaining a satisfactory standard in each course unit. Where a student has not achieved all the course units relating to the first year, he or she may be permitted to progress to the second year of the course, provided that he or she has achieved at least 104 SCOTCAT credits. To progress to the third year, the student must have acquired 240 SCOTCAT credits, with Merit being achieved in course units normally equivalent to at least 40 SCOTCAT credits from those offered in the second year.

Year 3:

There shall be four examination papers and an assessment of class work equivalent to one examination paper. Students who attain the requisite standard in the degree examinations and the assessment of class work shall be eligible for the award of the General degree. Those who obtain a sufficiently high standard shall, alternatively, be eligible to proceed to a fourth year leading to the degree with Honours.

Year 4:

There shall be three examination papers, a project equivalent to one examination paper and an assessment of class work equivalent to one examination paper. Students who obtain the requisite standards will be eligible for the award of the degree with Honours, in accordance with Section 6 of the Resolution.

SCHEDULE D: DEGREE OF BACHELOR OF TECHNOLOGY IN COUNTRY-SIDE MANAGEMENT

1. Subjects of Study

The subjects of study for the degree shall be defined in terms of the following course units. The contact hours shown include lectures, tutorials, practical classes and related assignments.

<i>Unit Title</i>	<i>Hours</i>	<i>SCOTCAT Credits</i>

2. Assessment

The arrangements for assessment and examination shall be as follows:

Years 1 and 2:

There shall be continuous assessment of students in each course unit. Progress will depend upon attaining a satisfactory standard in each course unit. Where a student has not completed all the course units relating to the first year he or she may be permitted to progress to the second year of the course provided he or she has achieved at least 104 SCOTCAT credits. To progress to the third year the student must have acquired 240 SCOTCAT credits with Merit being achieved in course units normally equivalent to at least 40 SCOTCAT credits from those offered in the second year.

Year 3:

There shall be nine examination papers and an assessment of course work. Students who attain the requisite standard in the degree examinations and the assessment of course work shall be eligible for the award of the General degree. Those who obtain a sufficiently high standard shall be eligible to proceed to a fourth year leading to the degree with Honours.

Year 4:

There shall be six examination papers, a fourth year dissertation and an assessment of course work. Students who obtain the requisite standards will be eligible for the award of the degree with Honours in accordance with Section 6 of the Resolution.

SCHEDULE E: DEGREE OF BACHELOR OF TECHNOLOGY IN RURAL RECREATION AND TOURISM MANAGEMENT

1. Subjects of Study

The subjects of study for the degree shall be defined in terms of the following course units. The contact hours shown include lectures, tutorials, practical classes and related assignments.

<i>Unit Title</i>	<i>Hours</i>	<i>SCOTCAT Credits</i>
<i>Year 1</i>		
Core		
A Practical Approach to Rural Tourism	40	8
Managing Finance in the Leisure Industry 1	40	8
Quality Service in the Leisure Industry	40	8
Food Safety and Catering Hygiene	20	4
Countryside Recreation	40	8
Buildings and Regulations in the Countryside	40	8
Information Technology Applications 1	40	8
First Aid	20	4
Communication: Selecting and Presenting Complex Information	40	8
Learning Skills	20	4
Career Planning	20	4
	—	—
Sub-total	360	72
Electives	240	48
	—	—
Total	600	120

<i>Unit Title</i>	<i>Hours</i>	<i>SCOTCAT Credits</i>
List of Electives in Year 1		
Equitation for the Leisure Industry	120	24
Outdoor Pursuits Management: Theory & Practice 1	80	16
Land Use Systems, Development and Policy	40	8
Introduction to Coaching and Leadership	40	8
Basic Communication in French 1	40	8
Heritage Studies	40	8
Catering Services for Tourism	40	8

2. Assessment

The arrangements for assessment and examination shall be as follows:

Years 1 and 2:

There shall be continuous assessment of students in each course unit. Progress will depend upon attaining a satisfactory standard in each course unit. Where a student has not completed all the course units relating to the first year he or she may be permitted to progress to the second year of the course provided he or she has achieved at least 104 SCOTCAT credits. To progress to the third year the student must have acquired 240 SCOTCAT credits with Merit being achieved in course units normally equivalent to at least 40 SCOTCAT credits from those offered in the second year.

Year 3:

There shall be up to eight examination papers depending on the electives chosen, and an assessment of course work. Students who attain the requisite standard in the degree examinations and the assessment of course work shall be eligible for the award of the General degree. Those who obtain a sufficiently high standard shall be eligible to proceed to a fourth year leading to the degree with Honours.

Year 4:

There shall be four examination papers, a fourth year dissertation and an assessment of course work. Students who obtain the requisite standards will be eligible for the award of the degree with Honours in accordance with Section 6 of the Resolution.

VII CODE OF PROCEDURE FOR APPEALS

Preamble

5.1 The Senate of the University of Glasgow is charged by the Universities (Scotland) Act with a duty to superintend the teaching of the University. This is understood to include examining.

5.2 The Senate of the University of Glasgow has agreed with the Principal of the Scottish Agricultural College (hereinafter referred to as 'SAC') that a procedure be established to dispose of appeals by students pursuing courses at SAC which lead to an award of the University of Glasgow. The validity of this procedure has been accepted by the Senate of the University and by the Academic and Business Committee of SAC.

5.3 The procedure is set out in the remainder of this document.

Constitution of the Appeals Committee

5.4 The Academic and Business Committee of SAC shall establish an Academic Appeals Committee (hereafter referred to as 'the Committee').

5.5 Full powers for deciding appeals are vested in the Committee.

5.6 The Committee shall consist of the Vice-Principal (Education) Convener, the Assistant Principal (Education), Heads of Divisions, and at least one representative of the Senate of the University of Glasgow.

5.7 No member shall sit in judgement on a case in which he or she has any interest.

5.8 The quorum for a meeting of this Committee, including the Convener, shall be five.

5.9 No member of the Senate Appeals Committee or the University Court shall be entitled to serve on the Committee. Where a member of the Academic Appeals Committee has participated directly in the decision appealed against, that member shall not sit for that individual appeal.

Jurisdiction

5.10 The jurisdiction of the Committee shall comprise all academic decisions affecting students, but not proceedings under the Code of Discipline or the Complaints Procedure. This includes Examinations Board decisions on student progress and final Degree Examinations.

Basis of Appeal

5.11 No appeal may be made on matters of academic judgement: in particular, no appeal may be made by any candidate against the academic judgement of an Examinations Board on the examination results.

5.12 An appeal may be considered only in matters of procedure, namely:

- (a) that there is new information that for good and proper reason was not available to the Examinations Board(s) at the time when they reached their decision on a particular student.

An appellant who wishes to appeal on medical grounds should obtain a medical certificate promptly, and should, if possible, submit it to the Academic Services Manager with the note of appeal, and in any case no later than the hearing.

- (b) that the conduct of the assessment was not in accordance with the approved assessment arrangements for the course.
- (c) that the candidate was given misleading written information concerning the nature of the examination and its requirements.

Lodging of Appeal

5.13 The grounds of appeal against the decision of the Examinations Board shall be clearly set out in writing and submitted to the Committee through the Academic Services Manager within ten working days following intimation or publication of the decision.

5.14 *Content of Note of Appeal.* The note of an appeal must state:

- (a) the name, address and, if possible, telephone number of the appellant.
- (b) the grounds on which the student considers that the decision should be revised.
- (c) the remedy, or remedies, which the student seeks.
- (d) whether the student wishes to speak at a hearing.
- (e) whether the student intends to be assisted or represented by any person, and if so the name and occupation of that person.

Time of Meeting

5.15 The Committee shall meet within ten working days of receipt of the note of appeal, or as soon as practicable thereafter.

Preliminary Disposal

5.16 Upon receipt of a written appeal the Vice-Principal (Education), after consultation with two members of the Committee, may:

- (a) dismiss the appeal because the appeal is out of time, or provides no sufficient grounds for an appeal, or is frivolous or vexatious; or
- (b) refer the Appeal to the Committee.

Appeals Procedure

5.17 The Committee may decide for or against an appeal on the basis of written evidence, but will be required to see the student in question should he or she wish to argue the case personally. The Committee will also be required to consider the evidence submitted by any person indicated by the student and to see that person if the student so requests. However, the Committee may proceed to hear an appeal in the event of any person failing to attend at the appointed time.

5.18 The Committee will have discretion to limit the number of persons to be heard if the evidence to be given by them is deemed to be similar in nature.

5.19 A student interviewed by the Committee may if he or she wishes be accompanied by a friend or adviser, as may any member of staff interviewed by the Committee.

Appeals from Students in Years other than the Final Year

5.20 In cases of appeals from students in years other than the final year, the Committee shall decide on the merit of each appeal and advise the Course Programme Manager and the appropriate Examinations Board of the decision reached.

5.21 The Committee must give the relevant Examinations Board an account of the reasons which led to its decision, but excluding any information which the appellant has clearly indicated to be of a confidential nature and to be heard by the Committee only. The power of the Committee shall not be used to overturn an academic decision that a student has failed, but will enable the Committee to rule that a student be granted a repeat year or similar chance to retrieve failure.

5.22 The Secretary of the Committee will communicate the ruling to the Examinations Board and to the student who, failing production of fresh evidence, will be required to accept this decision.

Appeals in the Final Year

5.23 Except as provided in 5.26, no decisions of an Examinations Board to which the External Examiners have given their approval explicitly or implicitly can be modified by any authority within SAC without the External Examiners' concurrence.

5.24 The Committee may require an Examinations Board to reconsider its decision on a final examination result in the circumstances detailed in paragraph 5.12 (a), (b) and (c).

5.25 In the circumstances detailed in 5.12 (a), the matter will be referred back to the Examinations Board, with a recommendation and a supporting statement giving the reasons for this recommendation. As with appeals in earlier years, any information will be excluded from the supporting statement which the appellant has clearly indicated to be of a confidential nature to be heard by the Committee only.

5.26 If after reconsideration, in the circumstances detailed in 5.12 (b) and (c), the Examinations Board does not modify its decision, the Academic and Business Committee may annul that decision if in its opinion account has not been taken of the relevant factors as specified in 5.12 (b) and (c).

Appeal against a decision of the Committee

A student who is matriculated for an award of the University of Glasgow, may appeal against a decision of the Academic Appeals Committee of SAC, but only in terms of the University Code of Procedure for Appeals to Senate. A copy of the Code will be found in the Fees and General Information section of the University of Glasgow *Calendar*.

The Senate Appeals Committee will entertain an appeal against the decision of the Academic Appeals Committee of SAC only on the grounds that:

- (i) new evidence has emerged which could not reasonably have been produced to the SAC Committee;
- (ii) there have been defective procedures at SAC level;
- (iii) the disposal by SAC was clearly unreasonable.
